

Please be careful of e-mails that misrepresent Kyowa Kirin

We have received an increasing number of e-mails from free e-mail addresses with domain names such as "@gmail.com" that falsely claim the name of Kyowa Kirin Company, Ltd. and the names of our executives, induce commercial transactions and request a reply.

All messages from Kyowa Kirin will come from "@kyowakirin.com", so please do not reply to such e-mails if you receive them.

The main content of the suspicious e-mails is that Kyowa Kirin wants to procure raw materials needed for the manufacture of medical devices. Kyowa Kirin is engaged in the research, development, manufacture, and sales of pharmaceuticals, and the contents of the e-mail have nothing to do with this. In addition, our executives would never conduct any commercial transactions themselves using the name of Kyowa Kirin. If you receive a forged contract in the name of our executives or receive a phone call pretending to be our executives, please do not respond to it.

If you have any suspicions, please do NOT reply and forward the message to us to confirm if the request is from our company.
